Navigating New Horizons

The DMADD team carries out monthly workshops named 'ThursdayTraining'. These short trainings aim to facilitate knowledge sharing among its members. The sessions are planned to be conducted on the last Thursday of every month.

The primary objective of these workshops is to enhance mutual understanding and upskilling among team members, ultimately contributing to the achievement of the project's overarching goals. The D'MADD team will share insights related to their work as well as have the chance to impart valuable experiences and life lessons that could benefit the entire team.

This initiative not only promotes professional growth but also strengthens the bonds within the DMADD team, setting a positive tone for collaborations and teamwork.

Productivity with Apps

24th November 2023

Today's session was carried out by the Communications Specialist, Ahmed Haleem.

GIMP can be used for pixel based image editing. Pixel passed images are considered as photos and usually a GIF and JPEG files. This is an alternative for Photoshop.

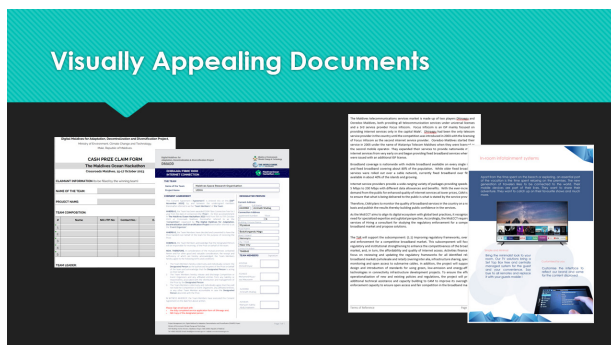

Inkscape is used to make vector based drawings. This is an alternative for Corel Draw and Adobe Illustrator. Can be used for making labels

Haleem, explained various software that can be used to create visually appealing documents. These include industry standard software from Corel and Adobe as well as free and open source software that can be alternatives for home and office use without hefty licensing fees.

Since the alternative and free version was brought into life Haleem also demonstrated why professional designers prefer Adobe cloud suite to boost productivity as they work in the same ecosystem.
