# Navigating New Horizons

The DMADD team carries out monthly workshops named 'ThursdayTraining'. These short trainings aim to facilitate knowledge sharing among its members. The sessions are planned to be conducted on the last Thursday of every month.

The primary objective of these workshops is to enhance mutual understanding and upskilling among team members, ultimately contributing to the achievement of the project's overarching goals. The D'MADD team will share insights related to their work as well as have the chance to impart valuable experiences and life lessons that could benefit the entire team.

This initiative not only promotes professional growth but also strengthens the bonds within the DMADD team, setting a positive tone for collaborations and teamwork.

## Integrity

29 August 2024

Dr. Waheed's presentation for this month's Thursday Training was about Integrity in Project management.

In the realm of project management, integrity stands as a cornerstone for success. The principles of being impartial, thorough, and focused on results are essential for maintaining high standards and achieving project goals. Integrity in project management involves demonstrating fairness and objectivity, ensuring that decisions are made without bias. Thoroughness is equally important, as it requires meticulous attention to detail and a commitment to quality in every aspect of the project. Focusing on results means keeping the end goals in sight and working diligently towards achieving them.

Demonstrating integrity also involves teamwork, where collaboration and mutual respect are paramount. It is about saying what you believe and acting on those beliefs, aligning roles, assignments, and project goals with core values. This fosters an environment where project teams can succeed by learning and growing together. Integrity, authenticity, trust, and humility are interlinked values that create a strong foundation for effective project management. By upholding these values, project managers can build trust within their teams and ensure the successful completion of projects.

### Project Management & INTEGRITY

- 01 Be Impartial
- 02 Be Thorough
- 03 Be Focused on the Result

Integrity
