Navigating New Horizons

The DMADD team carries out monthly workshops named 'ThursdayTraining'. These short trainings aim to facilitate knowledge sharing among its members. The sessions are planned to be conducted on the last Thursday of every month.

The primary objective of these workshops is to enhance mutual understanding and upskilling among team members, ultimately contributing to the achievement of the project's overarching goals. The D'MADD team will share insights related to their work as well as have the chance to impart valuable experiences and life lessons that could benefit the entire team.

This initiative not only promotes professional growth but also strengthens the bonds within the DMADD team, setting a positive tone for collaborations and teamwork.

Todays Session was conducted by the Communications Specialist Ahmed Haleem.

The participants of the session were given a demonstration and training on how to use the D'MADD websites Content Management System.

The CMS is designed in a way that all members of the D'MADD team can manage relevant components, without the need for any technical intervention.

Haleem, showed how to upload news items and announcements which are the most frequent activities.

At the end, participants engaged in discussion on how to place and organise pages to better organise the content of the website.
